

FEEL THE  
DIFFERENCE

**NIMBUS**

# PASSION AND LOVE FOR BOATING SINCE 1968.

It started in the early seventies when Volvo Penta needed a new kind of boat to suit their newly developed engine. An innovative group of people quickly seized the opportunity to create a new kind of boat for the social lifestyle. The Nimbus 26 was born and along with it a company that would become one of Europe's most renowned boat manufacturers. The company's history is a true success story - a tale of innovation, perfect timing and survival. But most of all a story about people who know about boats - and their passion and love for boating. A story still being told.

## SCANDINAVIAN DESIGN

A holistic view in which functionality is central when designing a boat.

Why? Because we build boats for conscious people who want their boat to be as good as it can possibly be when used in its natural element.

A photograph of a light blue motorboat on a body of water. The boat has a white upper hull and a dark blue stripe. A person's legs are visible on the deck, and a metal railing is in the foreground. A chain is attached to the bow. The background shows a rocky shoreline.

## A COMFORTABLE LIFE

Comfort is an important part of the Nimbus feeling, although this is not only about driving safely and comfortably in all weathers or about having plenty of room.

It includes every ingredient put into the boat, from design, production method, selection of materials and craftsmanship to delivery, service and accessibility – our ambition is to make boat ownership and life aboard as comfortable as possible.

## ATTENTION TO DETAIL

Environment award winning, high-tech production facilities, vacuum infusion technology combined with a passionate team of boat builders with more than forty years of know-how who strive to achieve perfection in every detail. The result? Satisfied Nimbus owners who appreciate the quality of life experienced onboard.

## COUPÉ CRUISERS

Nimbus Coupé series has been refined to perfection since 1969 and sold more than four thousand boats around the world. With Nimbus Coupé series we strive to build the perfect boat for the conscious customer who enjoys social activities, comfortable living, easy handling and excellent long distance cruising properties.
